Sir:

In connection with the accompanying Request for Continued Examination pursuant to 37 C.F.R. § 114, Applicant submits the following amendment and response to issues raised in the Final Office Action dated April 6, 2004. Applicants previously submitted an Amendment After Final Action pursuant to 37 C.F.R. § 116, but the Amendment was not entered as the Examiner concluded that it raised new issues. Accordingly, Applicants are pursuing a similar amendment by way of RCE. Applicants respectfully request that the accompanying amendments be entered, and that the pending claims be allowed for the reasons to be explained herein.

Claims 1, 2, 4-26, and 31-34 presently stand rejected over newly cited U.S. Patent 6,394,907 (Rowe). Claims 27-30 were previously withdrawn from consideration, and Claim 3 was previously canceled. By this paper, it is requested that Claims 1-2, 4-12, 19-26 and 31-34 be canceled without acquiescence in the grounds of rejection, and new Claims 35-40 added. The accompanying Remarks focus on independent Claim 13 (from which remaining Claims 14-18 depend). New Claims 35-40, as further explained, are system claims generally corresponding to

pending method Claims 13-18. For the reasons described in the Remarks below, it is respectfully submitted that Claims 13-18 and new Claims 35-40 are allowable over the newly cited Rowe '907 patent.

Amendments to the Claims are reflected in the listing of claims which begins on page 3 of this paper.

Remarks begin on page 8 of this paper.
